Subscribe to SAP Build Code

[Overview](#) [Components](#) [Additional Resources](#)

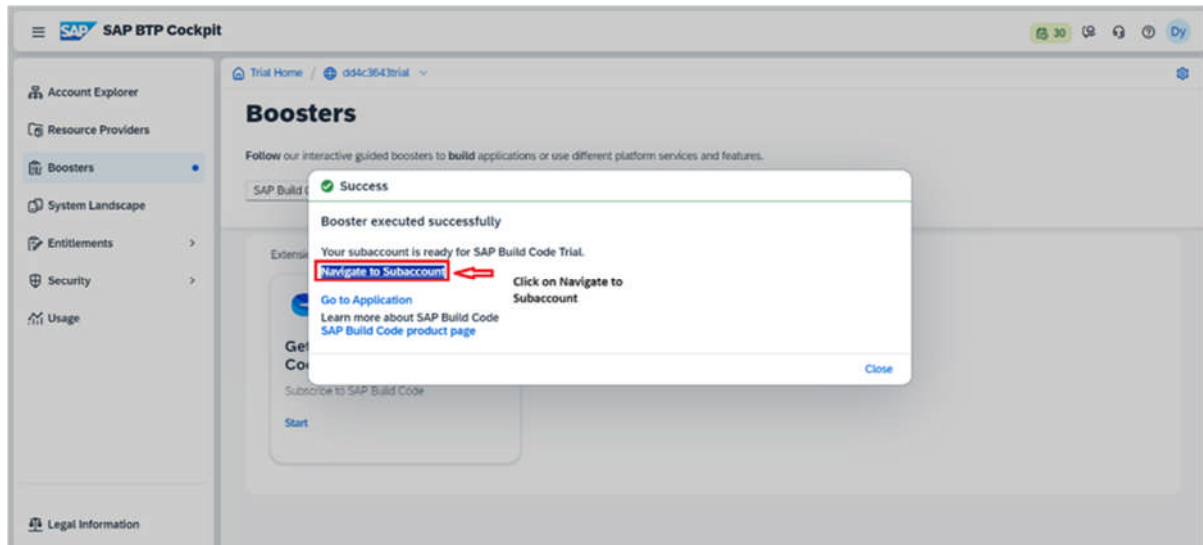

Customers and partners can use SAP Build Code to simplify the development of CAP applications running on SAP Business Technology Platform using ready-to-use SAP services and generative AI capabilities.

This booster will guide you through the process of enabling the tools, configuring entitlements, and assigning members on SAP Business Technology Platform.

Once the booster completes, your subaccount will be ready for business experts, citizen developers, and even pro coders to easily create or enhance business applications using wizards, templates, graphical editors, forms, workflows, and additional graphical tools that require no knowledge of programming. See Service Plans for the list of restrictions for the free plan.

The diagram illustrates the SAP Business Technology Platform architecture. It shows a central 'Subaccount' box containing 'Administration' and 'Runtime environment' components. The 'Design-time environment' is connected to the 'Subaccount' and 'Runtime environment'. The 'Runtime environment' is connected to 'SAP Cloud' and 'SAP Build Code'. The 'SAP Build Code' is connected to 'SAP Build Work Zone Standard'. The 'SAP Build Work Zone Standard' is connected to 'SAP Build Work Zone' and 'SAP Build Work Zone Standard'.

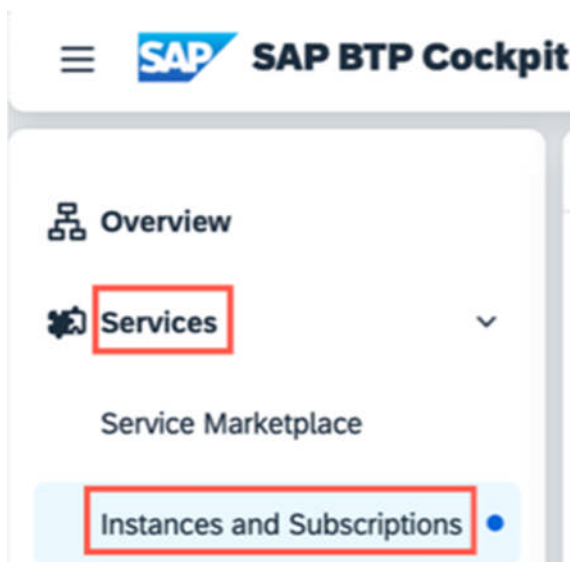

1.5 After running the booster, in the popup window, click **Navigate to Subaccount**.

From the navigation pane, select **Services > Instances and Subscriptions**.

2 Verify Subscription

2.1 From the navigation pane, select **Services > Instances and Subscriptions**.

2.2 Make sure you are subscribed to SAP Business Application Studio and to SAP Build Code.

Subaccount: trial - Instances and Subscriptions

All: 2

Search	Q	All Services	▼	All F
Subscriptions (2)	Instances (0)	Environments (0)		
Applications to which your subaccount is currently subscribed				
Application		Plan		
SAP Build Code		free		
SAP Business Application Studio		trial		

2.3 Click **SAP Build Code**.

The SAP Build lobby opens.
